ADVANCED STRUCTURAL COMPONENTS REPORTING

This section is required in order to comply with the requirements of IC 22-11-21 (Public Law 104, 2018) as it relates to the use of Advanced Structural Components (lightweight I-joists or lightweight roof trusses) in Class I and Class II Construction that:

- Have less mass cross-sectional area than sawn lumber of equivalent proportions used in an equivalent application; and
- Are assembled from combustible or noncombustible materials, or both

This does not include a structural assembly, joist or truss that provides at least 1 hour of fire resistance under ASTM E119

Does this project include any Advanced Structural Components? Yes (**Section Below Required**) No

Type of Advanced Structural Component (Select all that apply)	Location(s) in Structure
<input type="checkbox"/> Lightweight I-Joists	
<input type="checkbox"/> Lightweight Roof Trusses	

Class I structure permits are subject to the State of Indiana General Administrative Rules (GAR 675 IAC 12) regarding expiration time frames for beginning and completing construction.

I, the undersigned, agree that any construction, reconstruction, enlargement, relocation, or alteration of a structure, or any change in the use of land or structures requested by this application will comply with and conform to all applicable laws of the State of Indiana and the Carmel Unified Development Ordinance (Z-625-17) and amendments, adopted under authority of I.C. 36-7 et seq, General Assembly of the State of Indiana, and all Acts amendatory thereto. I further certify that only kitchen, bath, and floor drains are connected to the sanitary sewer. I further certify that the construction will not be used or occupied until a Certificate of Occupancy or of Substantial Completion has been issued by the Department of Community Services, Carmel, Indiana.

Signature of Owner or Authorized Agent _____ Date _____
