- 48                   4.     Unmanned Aircraft System (“UAS”): an aircraft without a human  
49                   pilot onboard, which is controlled from an operator on the ground.  
50                   Also sometimes called a drone.  
51

52                   **(b) Application.** The regulations set forth in this Ordinance apply within the City  
53                   of Carmel to the extent such airspace can legally be regulated by local  
54                   ordinance. This ordinance shall not interfere with the authority of the Federal  
55                   Aviation Administration (“FAA”). All operators of Unmanned Aircraft  
56                   Systems must obey FAA and Indiana laws, rules and regulations as may be  
57                   amended from time to time.  
58

59                   **(c) Prohibited Unmanned Aircraft System Activities.**  
60

- 61                   1. It shall be unlawful without proper registration, operator licensure and  
62                   approval as determined by applicable state and federal laws, rules and  
63                   regulations, for a person to use or operate an Unmanned Aircraft System  
64                   within a five hundred (500) yard horizontal radius of, or anywhere

68                   immediate danger of death or serious injury to any person, it may  
69                   immediately prohibit any Unmanned Aircraft System use. Within  
70                   twenty-four (24) hours of prohibiting such use, law enforcement shall  
71                   document the basis for the reasonable suspicion.  
72

73                   **(d) Non-applicability.**  
74

- 75                   1. It is lawful to use an Unmanned Aircraft System within the City to  
76                   photograph, film, audiotape, or otherwise record an individual or  
77                   individuals at a public event:  
78

80                   the owner of the private space or public space in which the  
81                   public event is being held;  
82                   ii. If the recording is captured for the purpose of mapping;  
83                   iii. If the recording is captured by a City official in the course of  
84                   their employment or an individual or entity under contract with  
85                   the City for the purposes of resource management, operation and  
86                   maintenance of utilities to determine the integrity of the utility or  
87                   to determine repairs.  
88                   iv. If law enforcement is using the Unmanned Aircraft System to  
89                   execute a valid search warrant or if law enforcement is acting  
90                   under circumstances in which an exception to the warrant  
91                   requirement is applicable.

v. If law enforcement is conducting a search for a missing or abducted person.

2. If an FAA-registered operator is granted approval by federal authorities to use an Unmanned Aircraft System under circumstances where such use would otherwise be prohibited under Subsection (c), the operator shall provide the following information to the Carmel Police Department at least forty-eight (48) hours prior to the event: (i) a copy of the registration certificate of any Unmanned Aircraft System intended to be used; (ii) a copy of the cover page of the operator's remote pilot certificate issued under 14 CFR §107.12 or Section 333 exemption; (iii) a certificate of liability insurance; and (iv) a copy of the operator's Certificate of Waiver or Authorization and Transportation Security Administration security waiver (if applicable). Failure to timely provide these documents prior to the use of an Unmanned Aircraft System within the City constitutes a violation of this ordinance.

**(e) Penalties.**
