United We Stand

United we stand, together as one,
to strengthen our arms and to fear none.

On our soil and across the seas,
helping others and curing disease.

These selfless people that help us every day and night,
deserve more recognition for their fight.

So here today we stand together to show our appreciation to you,
for the soldiers who fight for the stars on our flag,
to the people who heal the wounded, the hurt, and diseased.
We appreciate these heroes who help us everyday no matter what the cost,
and those who help the need.

United as a nation, a community, and a family,
to help others far and wide.

Together we are stronger than alone,
on the air, sea, and land you fight for our home.

No matter where and how, our veterans help our nation,
this community and individuals help fight for our safety and education.

United by sharing sacrifices that are never forgotten,
we remember and honor you and your lives like a stone.
Hard and solid and difficult to break,
so you will never be alone.

These everyday heroes work close, and far to act as one unit,
they stand tall and strong together to push through it.

This community we honor made many acts of valor,
58,220 people in just one war.

This group of people who fight for our freedom and liberty stand tall,
no matter what the injustice is, they fight through it all.

Observed every november 11th we celebrate you,
your immense sacrifices will never go due.

Your unimaginable hardships that display resilience,
your adversity, bravery, and patriotism follow.
We appreciate your great brilliance,
And everything you do.

We is a phrase, not just a word,
meaning togetherness and trust

Because altogether, if we are not one,
then we means none.

United we stand, divided we fall.
But if we stay together we won't crumble at all.
While we wave our flags in the sky.
Planes soar by.
Leaving red, white, and blue in our minds.
