### **“United We Stand”**

War: a vicious monster,  
Hungry for blood and turmoil.  
It stomps its enormous feet across the terrain.  
Clamor and chaos is a result of its troubling presence.  
Destruction traces its path.  
Yet, a village of soldiers stands in the way of this horrible monster.  
They are fighting between more destruction or peace.

They keep fighting using teamwork and determination.  
Each soldier puts in effort and makes an impact.  
Some perish,  
Yet they leave a long lasting mark.  
But, they stand strong,  
Brave and powerful.  
It doesn't take one to defeat him,  
But a group of fearless men and women,  
An army.

They are united as one in the peril.  
Supporting each other each and every day.  
No matter their ranking or official title,  
Each individual plays an important role.  
And without these people,  
and their inspiring teamwork,  
we would fall.

This act of unity represents our country as a whole.  
They are fighting for our country,  
For us.  
And they can achieve anything together.

Thank you veterans for being united.  
Together,  
you keep fighting each and every day.  
You never give up,  
And never back down.

Thank you veterans for your immense bravery.  
When a time turns dark,  
You come together to make the world a better place.  
You are fearless, which is something I greatly admire.

Thank you veterans for freedom.  
You stand up and risk your life for your country.  
And most of the time,  
You fight for citizens you don't even know.  
You display unity and courage as you sacrifice yourself for our freedom.

Lastly, thank you for your service.  
Each veteran has witnessed and been through hardships.  
Your actions are honored and cherished.  
Your unification is admirable,  
And will always be remembered.

So, thank you veterans, for everything.
