

APPLICATION

City of Carmel Irrigation Contractor License

The City of Carmel requires all Irrigation Contractors who install Irrigation systems in the Carmel Utility service territory to be licensed with the Carmel Water Utility. Application for license must be made and license issued prior to any irrigation installation. Specifications for irrigation installation are available in the Carmel Utilities Water Operations office and on the City of Carmel website.

www.carmel.in.gov

Carmel Irrigation Contractor License is **REQUIRED**.

The City of Carmel Utilities further requires a copy of proof of Liability Insurance to be attached to this application to be kept on file at our office. The City of Carmel Utilities also requires a copy of any employee, or sub-contractor's current State Certified Backflow tester's Certification number to be attached to this application.

Send the following information to the following address. Upon receipt and review of the information listed a Carmel Certificate of License will be prepared and mailed. Once your license is received you may start work in Carmel. Mail Required Information To:

Carmel Water Operations
3450 W. 131st Street
Carmel, IN 46074
317-733-2855

Licenses may be revoked if Carmel Utility irrigation installation specifications are not followed as in but not limited to: 1. Proper backflow installation per device. 2. Backflow testing per device is not performed. 3. Irrigation permits are not purchased prior to construction. Securing the irrigation permit is the contractors' responsibility.

Send us the following information with a copy of each current State Certified Backflow tester's Name and Certification Number employed with this Irrigation Contractor
