

Carmel Water Utility

Commercial- Business Water line responsibility

Responsibility for Commercial/ Business water lines is not the same as Residential lines.

The responsibility of the Water Utility for **Commercial/Business** water lines stops at the first connection to the utility owned water main (corp stop, inline gate valve, butterfly valve, etc.) Past that point all repairs and associated costs are the responsibility of the **Property Owner/Business Owner**

(Also some **Commercial/ Business** private water lines have fire hydrants that are connected to them , these hydrants are to be painted safety red and all maintenance and repairs and associated costs for these hydrants are the responsibility of the **Property Owner/Business Owner**
