

City of Carmel Trash & Recycling Program for Businesses

The features and benefits of the City of Carmel residential trash & recycling program is now available to non-residential businesses and organizations within the City limits of Carmel. Pick-up logistic review and pre-approval is required.

If your business would like to have the benefit of:

- Weekly curbside recycling if desired (one or two 96 gallon carts)
- Weekly trash service if desired (one or two 96 gallon carts)
- Note: Maximum of three carts, two of any type.
- Low monthly fee of \$11.18 for 2017 service included with your Carmel Utilities bill.
- If you do not receive a Carmel Utilities bill one will be generated for you for trash/recycling service.
- Features are identical to the residential program including service day.

Requirements:

- Business must be located within the City limits of Carmel.
- Site visit for pick-up logistics and pre-approval by Republic Services is required.
- Businesses in leased space must obtain prior approval from their landlord regarding cart storage and street curbside pick-up. Neither the City of Carmel Utilities nor Republic Services will be involved in these arrangements.

Encouraging Recycling

Participating in the trash portion of this program is not required. Carmel Utilities recognizes that many businesses have trash needs greater than what the program provides yet would like the convenience of Weekly curbside recycling via 96 gallon carts. You may keep your current trash arrangements and utilize the city service for just for recycling.

The City of Carmel encourages its residents and businesses to recycle to the maximum extent possible. The offering of this program in conjunction with Republic Services to area businesses is another way to increase the level of recycling within the City.

Enrollment Information:

Please send

- Your name.
- Your business/organization's name.
